ELBA, ALA., JUNE 10, 1911.

We are some distance off from direct election of Senators.

Wonder if Cleveland were yet living what he would think of Woodrow Wilson's progressive ideas?

No rain this June at night—or in the day time either for that matter.

The people are hungry for garden truck—the dry weather having just about put the finish on the vegetables.

Gov. Comer and Judge Jones ought to get out their several letters in a little book. It would be as good reading as a detective story.

Deputy Sheriff Charles R. Davis let a window in the court house fall on one of his fingers yesterday, taking off a little piece of the finger and making a bad wound.

The Standard Oil wagons still run in Coffee County. None of the Standard's employees are on the lookout for jobs. Contracts for long time delivery of oil and gasoline are still being taken. Yet the Supreme Court told the Standard some weeks ago that it would have to discontinue.

Opposes Direct Election.
Montgomery, Ala., June 14.—Gov. Emmett O'Neal expressed himself as unalterably opposed to the direct election of United States Senators. "I wrote an article in the North American Review in November, 1908," said Governor O'Neal. "In it my views are clearly expressed. In one part of the article I cautioned Southern Senators that direct elections would ultimately mean the federal control of elections."

The New Pension Law.

Montgomery Advertiser.

The new pension law, under which Alabama veterans will hereafter receive their pensions is of doubtful value to the needy among the old soldiers. Under the new law the list of pensioners will be so largely increased that it seems impossible for the special pension fund to pay the veterans what they have been accustomed to receive from the state.

The last pension act approved April 24, 1911, raises the property qualification. Under the old law no veteran who had property valued at more than \$500, or who was in receipt of a salary of \$25 a month could draw a pension. Under the new law there is no salary qualification, and each pensioner is permitted to own \$2,000 worth of property. Moreover, the restrictions in regard to pensioners of the first class have been so enlarged that all veterans who are 80 years of age will be entitled to a pension of the first class regardless of their physical or financial condition.

Tax Collector Charles B. Teasley, who is well qualified to speak on these matters, is of the opinion that the new law will result in an increase in the number of pensioners of from 20 to 40 per cent. Such an increase will mean a corresponding decrease in the amount each pensioner receives.

As is often the case the Legislature in its haste to carry out campaign pledges of its members seems to have over-reached itself.

We don't Have To

Tell you what it's for it's name tells. Dr. Bell's Pine-Tar-Honey is the best cough medicine and several million people already know it. Look for the bell on the bottle.

Yes, Mr. Rubenstein, the petitioner, came through our community pleading for a call election or trying to persuade the people to sign his petition, but beat on people are wise. We have been beaten so long, why not fight for our rights and keep that disgraced enemy out of our way.

The progress of civilization has incurred a necessity of harder and exchange as the means of subsistence; thus wealth, as the medium of acquiring all the comforts and all the luxuries of life, has obtained high consideration among mankind.

There are day laborers who go home with more real comfort, of neatness now than ever while we had or they had, the bottle in one hand and the ball in the other. More homes are made happier while we have no bar-rooms. So let's bring our voters, line up to economy with our wives and little children who are looking to us for their support and comfort. So dear voters, control your nerves and send Mr. Rubenstein back to Geneva County with his petition.

Hoping matters will be carefully considered by the voters of Coffee County and that many homes may be made happy by the continuous out of bar-rooms and dispensaries.

MEXICO SHAKEN BY GREAT EARTHQUAKE

Believed That 5,000 People Have Perished.

40 CITIES ARE DAMAGED

Conservative Estimates Report the Known Death List at 1,500, and It Is Believed That This Will Be More Than Doubled Later.

A division from Mexico City says:

"But with the gradual restoration of telegraphic communication throughout the republic has the real extent of the devastation brought by the earthquake been revealed. The most conservative estimate prepared by the government shows that fully 1,500 have been killed, and when the inexcusable securities are heard from it is feared that the death list will go above 3,000."

The ruin started in many cities by the earthquake of Wednesday morning has continued to increase with the passage of time. The damage was most severe in the southern and western sections of the country, but was distinctly felt at Mexico City. The fact that the local communications have been broken by the shock of Wednesday prevented an accurate record being taken.

The second quake was first at 5 p.m., and was of five minutes' duration.

Though no damage was done at Mexico City, the panic of the lower classes was considerable.

After the first disaster was re-

duced, and the churches were

thronged all night with prayerful

service. Several American citizens, including Ambassador Reid to King George at St. James held in London at St. James' palace. They were J. Pierrepont Morgan, who was a frequent attender at the British Embassy, and the Consul of King George, Alfred G. Myers, of Moran, Pa.; Edward Brewster, of Philadelphia, and W. H. Morgan, of New York.

Mr. Reid was accompanied by the members of the American embassy staff.

The seventy-fifth anniversary of the founding of Wesleyan college, at Macon, Ga., was appropriately celebrated

at the historic chapel of the institu-

tion Tuesday. Graduates of the col-

lege from all over the country partici-

pated in the program.

An audience was made by Mrs. J. B. Cobb, whose honor the alumnae are rais-

ing a fund of \$25,000 with which to

endow a chair in English in her name.

The exercises were particularly com-

memorative.

Representative Edward, of Georgia, introduced a bill in the house at Washington asking an appropriation of \$75,000 for a public building at Lumberton, Ga. Mr. Edwards had been working to his end for some time, and the bill was introduced April 27, 1900, for the purchase of a suitable site.

It is Mr. Edwards' opinion that, since the site has been purchased by the government, he will now be able to get through a bill for the erection of the building.
